

# JORDAN KITTLE

---

+1(805)705-4294 | [jordankittle@gmail.com](mailto:jordankittle@gmail.com) | Goleta, CA

Full Stack Software Engineer with expertise in developing responsive applications and enhancing performance through innovative solutions. Specializing in Angular, NestJS, and TypeScript, dedicated to delivering high-quality software

## Work Experience

**JAN3**

**Full Stack Software Engineer | 01/2023 – Present**

- Develop [jan3.com](http://jan3.com), [aquawallet.io](http://aquawallet.io), [cypherpunk.store](http://cypherpunk.store), and [btctimes.com](http://btctimes.com) in alignment with Figma designs, ensuring responsive and visually cohesive user experiences across all sites
- Develop backend services using NestJS and TypeScript, enhancing application performance and scalability
- Integrate frontend and backend with Google reCAPTCHA Enterprise to ensure secure, human interactions and reduce automated threats
- Integrating Mautic marketing automation to increase campaign efficiency and improve customer engagement
- Hire and train junior developers, fostering team productivity and skill development
- Develop an in-house translation library supporting 18 languages, saving hundreds of dollars in third-party costs and enabling instant translation without network calls

**Pixelmatic**

**Full Stack Software Engineer | 04/2021 – 12/2022**

- Developed Angular frontend in alignment with Figma designs, ensuring a responsive and visually cohesive user experience
- Integrated Authy authentication and utilized test-driven development (TDD) to achieve 90% code coverage of the backend, enhancing security and reliability
- Developed a custom control panel for game administrators, integrating frontend and backend technologies using Angular, NestJS, GraphQL, and gRPC to streamline game management
- Refactored existing RxJS to reduce storefront load times by 50%, achieving under 4 seconds, which lowered bounce rates and improved user experience
- Developed and integrated Strapi components, enabling editors to efficiently manage site content and reducing content update time by hours or days
- Produced and presented videos at company-wide all-hands meetings, highlighting team achievements and site performance updates, which boosted morale and incentivized team accomplishments
- Achieved consistently excellent performance reviews, demonstrating a strong work ethic and significant contributions to team goals

## Skills

Data Structures, Programming Languages, Framework Libraries, Version Control, Software Development, Full Stack Development, Process Optimization, Interpersonal Communication

**Technical Skills**

TypeScript, Angular, React, Node.js, Express, GraphQL, RxJS, HTML5, CSS

## Education

B.S. in Soil Science, California Polytechnic State University, San Luis Obispo | Dean's List
